

# EURASHE Project

---

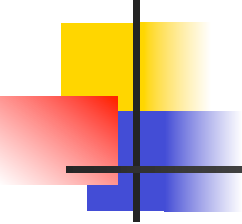

- Analysis of the Tertiary Short Cycle (TSC) Educations in Europe

# Objective of Project

---

- To increase the transparency and recognition of the TSC Educations
- To promote, that a substantial part of the TSC Educations can be an integrated part of the Bologna Process

# Action plan: Within the period June 2002 – June 2003

---

- To carry out a comparative analysis of the TSC Educations in Europe
- To arrange a European Seminar about the TSC Educations
- To suggest actions to include the TSC Educations in the Bologna Process

# The comparative analysis will imply

---

- An updated list of countries with TSC Educations as a part of the Higher Education System
- Formal links of the TSC Educations to the Higher Education Structure
- Formal links to the labour market

- Mobility actions for students and teachers
- Use of ECTS and Diploma Supplement
- Quality Assurance, including Accreditation issues
- Relation to Adult Education in a Lifelong Learning Scenario
