

5 Key Policy Recommendations

1. Holistic vision of learning
2. Focus on the effects of learning
3. Stimulate networks, partnerships and cooperation
4. Promote flexible learning pathways
5. Foster evidence based policies

Lifelong Learning - AGORA

Holistic Vision of Learning

Policy coherence

Between education, social and employment policies & actors...

Between the different levels: European, national, regional and local...

Focus on the effects of learning

Putting people at the centre of the strategy

Consider the wide benefits of learning: in terms of learning gains, empowerment, well-being, new career opportunities, health, social inclusion and employment

Towards a learner-centred approach to education

Quality education including of life-long guidance/counselling services

Lifelong Learning - AGORA

Stimulate networks, partnerships and cooperation

Sustainable dialogue mechanisms

Within the sectors... Across the sectors... With other areas...

Setting up national or regional Lifelong Learning Platforms using the LAB model

Promote flexible learning pathways

Life-long learning routes

Offer alternative pathways especially through non-formal education

Foster the validation of non-formal and informal learning

Develop educational provisions that are flexible in times, modes and delivery (including through the use of e-learning) to overcome geographic, mental, financial... barriers

Foster evidence based policies

Bottom up and top down

Better understanding of policies/programmes: on-going evaluation

Culture of experimentation: testing solutions

Systematically involve stakeholders in policy developments

Creating a space for lifelong learning

Lifelong Learning - AGORA
