The First Global Start-Up Education Conference

November 29, 2016

For the first time, ORT Israel is holding **Science & Technology Education Conference** where international and local educational experts and business leaders will present and discuss innovative approaches to i-STEAM education

I-Innovation S-Science E-Engineering A-Arts M-Mathematics

With participation of experts from schools, university, industry, foundations, government, local municipalities, IDF, technology companies and start-ups.

The conference will feature an **exhibition of Technological Education** by technological education companies and start-ups, students, and sponsors
